*"Education is the most powerful weapon which you can use
to change the world"*

Nelson Mandela

I feel immensely proud to witness this momentous achievement, as the college celebrates fifty years of its glorious existence. The inception of this college has been laid with the idea that education is the harbinger of all changes in the world. In our country, this change has been gradual as educational institutions strive hard to bridge the gap between the affluent and disempowered citizens. The need of the hour is to impart quality wholesome education to all the pupil-teachers so as to make them torch bearers as education providers. The education thus rendered must aim to not only educate our pupil-teachers about the profession they are about to embark upon, but also to build a strong ethical base and lead a morally good and ideal life.

As we reflect on the past year and look ahead to the future, let us celebrate the moments shared, the challenges overcome, and the bonds strengthened within our pupil-teachers community.

May the memories we have created together serve as a source of inspiration and joy for years to come. I am grateful to have had the opportunity to witness the incredible growth and achievements of our B.Ed. family. I wish that you all reach greater heights and attain high standards of professional excellence in your lives.
