### **Reasons stated by unsatisfied 3% students**

- i. Although Teachers take the class but it's not taken strictly and there is a lot of extra activities other than classes and Most of our College time is spent in those activities.
- ii. Teachers are mostly involved in administration work rather than taking classes.
- iii. No attention to knowledge just completion of syllabus
- iv. It's really challenging with few teachers as i don't understand properly each and everything they teach...And for example I would say - Mechanics. I think there are differences between having and knowledge and to pass that knowledge to the students through teaching... -> Teaching methods can be improved -> Being a bit polite is also a need as we don't find it easy to ask for doubts because of the fear that the teacher would shout at us.

- v. Teacher neither teach us nor they help us. They just give us lot of assignment because of which I feel overburdened.
- vi. There was so meeting in the college of teachers that's why teachers are busy and not able to take the class.
- vii. We have good teachers but there work load is too much that most of the time they are unable to take classes. Coming from long distance and going back without having any class never satisfy anyone with teaching system.
- viii. Too much work load pressure
- ix. Teachers gets a bit rude while teaching. College should make a friendly environment for students.
- x. I have two problems: 1) I am not satisfied with the teaching in the college as mostly notes are provided by teachers in hindi as there is a majority of hindi medium students. 2) If classes are not going on teachers doesn't even send message in the group.

- As per the collected data, 95.7% students are satisfied with the facilities in college whereas only 4.3% are unsatisfied.

- **Reasons stated by unsatisfied 4.3% students**

- i. I would say we have given most of the facilities but the fact can't be denied that our bags, phones and other stuffs are in danger... Some of our class students have lost their phone and didn't find it again.... And seriously this is a huge problem so I would just recommend to have cameras in classes or any other solution for this issue.
- ii. Please clean the wash room for student it's very bad for everyone
- iii. Facilities are not good ...like washroom ...it's so unhygienic( with bad smell and not cleaned)
- iv. Lack of drinking water facility in commerce department.
- v. Books are not enough in library, benches are not enough for student even in exam time Chair and table are not okay, it gives difficulty in examination. There is no proper seats available in our faculty and the smart boards are not working yet.

- vi. I have issues regarding cleanliness of water cooler . B. Ed faculty biometric system sometimes doesn't work properly. If it is assembled to record our attendance, proper Regulation of biometric is necessary .
- vii. Washroom are not well and many computers of computer lab is not working
- viii. Canteen system can be more hygienic.
- ix. Only one this, Washrooms are not clean It becomes difficult to even breathe there. everything else is very good :)

- xii. Washroom does not remains clean
- xiii. Washroom are not clean and washbasin too
- xiv. no personal computers 10 students sits in one computer
- xv. Playground are too small.
