About the Webinar

"Feminism isn't about making women stronger. Women are already strong; it's about changing the way the world perceives that strength."

-G.D. Anderson

Gender justice is a human right; every woman and girl is entitled to live in dignity and in freedom, without any fear. Gender Justice is indispensable for development, poverty reduction, and is crucial to achieving human progress.

Women's empowerment is a critical aspect of achieving gender equality. It includes increasing a woman's sense of self-worth, her decision-making power, her access to opportunities and resources, her power and control over her own life inside and outside the home, and her ability to effect change.

Beti Bachao, Beti Padhao is another progressive initiative with an aim to achieve gender equality. It is a personal campaign of the Government of India that aims to generate awareness and improve the efficiency of welfare services intended for girls.
