ONE WEEK FACULTY DEVELOPMENT PROGRAM ON E-CONTENT DEVELOPMENT & LEARNING MANAGEMENT SYSTEM

The world as we know it has changed in the blink of an eye with the COVID-19 pandemic. With educational institutions remaining closed for an extended duration came the reality of online teaching. As academicians gear up to make the move from traditional to online teaching-learning, the process requires some re-learning. For electronic teaching-learning, it becomes essential to develop e-content with the varieties of tools available.

The E-content delivery platform known as LMS (Learning Management System) is a server-based or cloud based software program. LMS has information about courses, the users and course content. A learning management system provides a platform to teach and learn without depending on the time and space boundaries.

Using Learning Management Systems in education offers a smart alternative to educational institutions in such a scenario and allows instructors to deliver customized content, leverage various pedagogical models, and engage their students. The primary advantage of any learning management system is its centralized source of learning. It allows institutes to save all the e-learning content in one single place, instead of having it scattered at different locations.

This helps in both reducing the risk of losing important data/content and enhancing the overall efficiency of the system. Using a single learning management system in education to deliver content to students can increase adoption rate, minimize costs, and cut down the training time substantially. An LMS can help simplify and revolutionize learning. The fact that it is easy to use and doesn't require much expert intervention makes LMS a great tool for educators and a powerful learning experience for students.

~Objectives of the Program~

- ❖ To understand the meaning and standards of E-content, learning objects, designing and development of digital resources for teaching and learning
- ❖ To understand Learning Management System and process of its implementation
- ❖ To promote generation of e-Content in all subjects using Powerpoint Tools, Spreadsheet Tools and Writer Tools
- ❖ To develop the skill of creating interactive e-Content among teachers
- ❖ To make available the e-Content to teachers and students through various delivery modes for formal and non-formal education, for supplementing and complementing the process of teaching and learning in higher education

About S.S. Khanna Girls' Degree College, Prayagraj

Sadanlal Sanwaldas Khanna Mahila Mahavidyalaya, Prayagraj, was established in the International year for Women, 1975, with a vision of empowering women education. The college has grown from a single faculty to composite institution wherein education is being imparted in the faculty of Arts, Science, Commerce, Teacher-Education and Law at the under-graduate and post-graduate level. The college is exclusively for women and aims to cater the needs of students belonging to diverse socio-economic backgrounds, to cultivate moral, intellectual, spiritual, social, and emotional values for all-round development of the students. The Institution is a Constituent College of the Central University of Allahabad and is completely equipped with all modern amenities in a beautifully architected building. It is popular among students willing to receive a quality education through an experienced team of faculty. It has been accredited with **CGPA of 3.46 on a four-point scale at "A" Grade by NAAC** in 2014. The college has been awarded the status of **"College with Potential for Excellence"** by UGC. It has also been selected under strengthening component of DBT Star College Scheme,, Department of BioTechnology, Government of India in 2019-20.

About Guru Angad Dev Teaching Learning Centre of MHRD (PMMMNMTT)

"Guru Angad Dev Teaching Learning Centre" is a centre of MHRD under the Pandit Madan Mohan Malviya National Mission on Teachers and Training (PMMMNMTT) of the MHRD, Govt. of India. The objectives of the Teaching Learning Centre are to prepare Modern age teachers. Under this centre many National level activities like Seminars, FDPs and workshops at both basic and advanced level are being conducted to empower the teachers in ICT skills, develop teaching kits / teacher's tools and ICT empowered pedagogies to enhance teaching-learning process. In its various programmes, around 25000 teachers across the nation have benefitted till now. The GAD-TLC is not only conducting MHRD's newly introduced Faculty Induction Program (FIP), but also provided inputs in designing the content framework for the same to be implemented by all other centres for the FIPs. The centre has in-house e-learning technical expertise and infrastructure (video studio with virtual set technology) for e-content development in all formats including multimedia enriched video, animations, etc. as well as for virtual groups on LMS. The core team has developed more than 50 MOOCs for SWAYAM platform of MHRD, Govt. of India. GAD-TLC at SGTB Khalsa College, DU has been awarded the National Resource Centre of Chemistry, by MHRD, Govt. of India. The mandate of this National Resource Centre (NRC) is to conduct Annual Online Refresher Program for higher education faculty in Chemistry under the ARPIT (Annual Refresher Programme in Teaching) scheme of MHRD.
