About the College

Sadanlal Sanwaldas Khanna Mahila Mahavidyalaya, Prayagraj, was established in the International year for Women, 1975, by the joint efforts of late S.N. Kakkar Former Union Minister of India), Prof. D.D. Khanna (Ex.-Head of Department of Defence Studies, University of Allahabad) and Shri Shyam Narain Kapoor, members of the Khattri Pathshala Society with the motto “Let noble thoughts come to us from every side. The college has grown from a single faculty to composite institution where in education is being imparted in the faculty of Arts, Science, Commerce, Teacher-Education and Law at the under –graduate and post graduate level. The college is exclusively for women and aims to cater the needs of students belonging to diverse socio economic backgrounds, with the objective of cultivating moral, intellectual, spiritual, social, and emotional values for all round development of the students. Along with academics it regularly organises co-curricular activities and events at the national level to make the students emotionally resilient, take active participation in decision making, learn social responsibility and develop as leaders of change.

The Institution is a Constituent College of the Central University of Allahabad. It has been accredited with CGPA of 3.46 on four point scale at ‘A’ Grade in 2014 and has been awarded the status of “College with Potential for Excellence.

About the webinar

Technology has proved a useful and necessary tool to provide essential public services during the COVID-19 crisis. As the coronavirus continues to spread around the world, governments have put in place important restrictions on the movement of people, the functioning of services, and rules on social distancing. Within this context, technology can have a profound effect on citizen’s daily lives and ensure them access to health services, access to information, and banking etc. Some technologies support the underlying infrastructure for work-at-home and eLearning models to help as many individuals as possible to maintain employment and educational progress. Paired with mobile hardware tools, like mobile phones, tablets, and laptops, quick movement to homes was relatively straight forward. In addition, network and communications technologies serve as the backbone for keeping social connectivity with family and friends in lieu of being able to gather physically together, whether it is through online videos, social media or simply voice connections. No doubt, our experience today will lead to a new technological advancement that will further aid and of course even alleviate the impact of pandemic.

About Registration

Registration is free of Cost. For Registration:

Step1 Click here: <https://forms.gle/52RS96eL93nRxSfCA>

Step 2 Join only one Whatsapp Link:

<https://chat.whatsapp.com/lk848qteVst8Y2bnDm6O3i>

OR <https://chat.whatsapp.com/DBkrQTNER3F7qeIINvPhqW>
