## About the Webinar

From the stone age hunter, to the maker of atom bombs and hydrogen bombs, from the inventor of wheels to the one setting foot in the space, from the worshipper of nature to the differentiator of moral, a-moral and immoral, the alteration in the moral dimension is self-evident.

This change in moral dimension occurred right after the arrival of 'Aryas' and the creation of 'Vedas', which kept on transforming itself more and along with Buddhism, Jainism, Christianity etc.

This continuous alteration or modification, or in general lets say transformation of morality impacts the culture, society, economy and political makeup of the world. In this webinar keeping in view this transformation of Man & Morals, we will discuss its impact on the present global scenario.
