A Journey of 50 Glorious Years

Sadanlal Sanwaldas Khanna Mahila Mahavidyalaya (S. S. Khanna Girls' Degree College) Prayagraj, a Constituent College of University of Allahabad, was established in the 'International year for Women', 1975, by a group of idealists, Late Prof. Damodardas Khanna, Late Shyam Narain Kapoor, Late. S.N. Kakkar and Late Govind Prasad Khanna. At the inception, the college had the Faculty of Arts and four faculty members. The college was visualized to impart moral, spiritual and nationalist values to girl children belonging to the less empowered sections of the society.

With the tenacious efforts of its founding members, and the steady support of the faculty members, the college gradually evolved to nurture and cultivate the hopes and dreams of innumerable girls, providing them with a suitable space to attain wholesome education, for stepping into the world as competent individuals and proficient citizens.

In its journey of 50 glorious years, the college has grown to be a composite institution wherein now education is being imparted in the faculty of Arts, Science, Commerce, Teacher- Education and Law. Apart from undergraduate courses, the college offers Post Graduate Courses and D.Phil. also. Apart from the regular degree courses, the college also runs various add on courses such as Diploma in Bio-technology, Diploma in Fashion designing, O level and CCC Computer Courses, Certificate Course in German etc. The curriculum delivery is executed with great care through dedicated faculty members (45 permanent, 48 self-financed) so as to ensure maximum output.

The college encourages its students to engage with the community, fosters ideas of eco-awareness, gender sensitization, and assists the students to internalize and assimilate these ideas which shape their future. The college is blessed with a team of donors. As of date, it has a corpus of crores of rupees. The interest generated from the corpus is utilised by the institution to provide freeships, scholarships to needy, single girl child etc, totalling more than 10 Lakh rupees.

Prof. Damodar Das Khanna Arts Faculty

"Education is the kindling of a flame, not the filling of a vessel"

- Socrates

Education always plays an important role in the all-round development of human beings as well as the nation. It is a unique investment in the present as well as future. Every country develops its own system of education to express and promote its unique socio-cultural identity besides meeting the challenges of time to leverage the existing potential opportunities.

In response to the longstanding need for a girls' college in the locality where the weaker section of the society resides, Late S.N. Kakkar and Late Prof. D.D. Khanna laid the foundation of an exclusive Girls' College i.e. S.S. Khanna Girls' Degree College, Prayagraj in 1975, the International Women's Year, with a noble mission of imparting education and emancipating women. A constituent college of the Central University of Allahabad it has gradually developed from a meagre strength of 24 students in 1975 to 4,000 at present. It has been a proud privilege that the College has entered the Golden Jubilee Year in 2025. This journey of 50 years has witnessed glorious past of dedication and achievements and now we look up to future endeavours. Subjects in Arts stream provide a wide array of benefits, including enhancing communication skill and creativity and fostering a deeper understanding of society, culture, tradition and history. The courses offered in Arts stream indeed, contribute to the overall development of the young minds.

SAROJ LALJI MEHROTRA SCIENCE FACULTY

"An investment in knowledge pays the best interest." – Benjamin Franklin

The Saroj Lalji Mehrotra Science Faculty, established in 1994-95 with undergraduate programs in Biology and Mathematics, has since experienced remarkable growth in both infrastructure and academics. The faculty in the last decade has expanded to include **postgraduate (PG) courses in 2016-17** and **D.Phil. programs in Botany, Chemistry, and Zoology in 2019-20**.

Advancing Undergraduate Science Education

In 2019-20, the Departments of **Botany, Chemistry, and Zoology** were selected for the strengthening component of the **Star College Scheme** by the Department of Biotechnology (DBT), Government of India. This scheme provided crucial financial support to enhance undergraduate science teaching. Students across all three years of the B.Sc. program were benefited from this initiative, gaining unique exposure to experimental science. This "hands-on" approach fostered critical thinking and improved practical skills in the aforementioned subjects.

The DBT's support significantly boosted student participation in various activities, increased the efficiency of non-teaching staff, led to better laboratory setups, and encouraged greater faculty involvement in academic and extracurricular work. The scheme also ignited a passion for research and networking among both faculty and students, leading to visits to research institutes and industries, and inspiring applications for research grants, preparing them for future challenges.

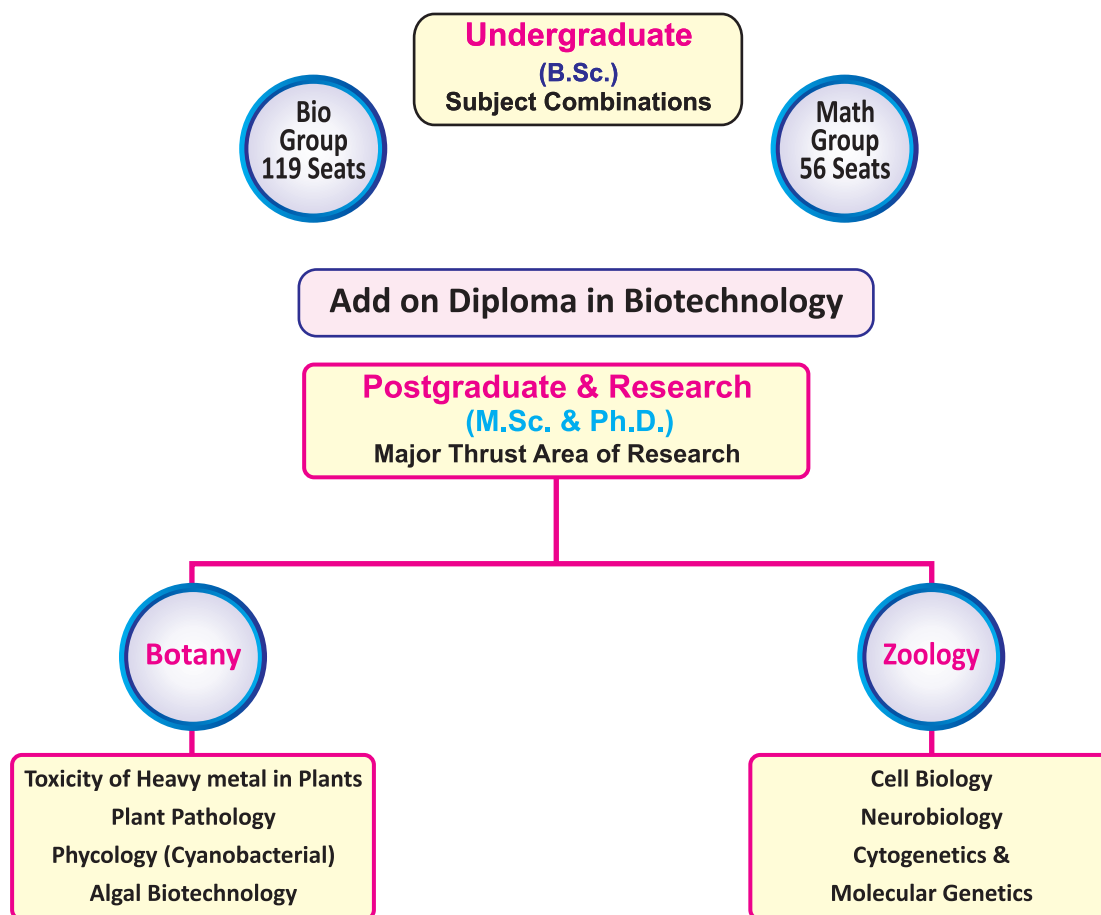

A Crowning Achievement: DST-CURIE Scheme

The college's commitment to research and academic excellence was further recognized with its selection under the **DST-CURIE Scheme** ("Consolidation of University Research for Innovation and Excellence in Women Universities"). Under this prestigious scheme, the **Botany, Chemistry, and Zoology** departments received research funding from the Department of Science & Technology (DST), Government of India.

This grant includes non-recurring funds for equipment purchases and recurring grants over three years for the holistic improvement of science education, with a strong emphasis on practical training at the postgraduate and research levels. The CURIE scheme aims to nurture scientific excellence by providing essential infrastructure and facilities for R&D activities in new and emerging areas, and attracting fresh talent to women's educational institutions.

Furthermore, the scheme includes an outreach component, enabling students from other colleges to utilize the college's advanced equipment. The grant will invigorate interdisciplinary research through the upgrade of postgraduate teaching and training laboratories, the development of comprehensive curricula, and the enhancement of hands-on practical training to equip students with expertise in their respective fields. Significantly, **S. S. Khanna Girls' Degree College is the first PG college in Prayagraj to receive funding under the CURIE Scheme.**

The college extends its deepest gratitude to the Sar-La Education Trust, Mumbai, for their unwavering financial support. Their ongoing annual grant of 20 lakh plays a pivotal role in the successful running of the Saroj Lalji Mehrotra Science Faculty.

NAND KISHORE KHANNA COMMERCE FACULTY

“Commerce is the nucleus around which the economy of the country revolves”

Nand Kishore Khanna Commerce Faculty was established in the college in the year 1999 to impart education in the Commerce stream by offering the degree of B. Com. Since its inception, it was focused on making the girl students economically self-dependent because Commerce is the most job-oriented stream which does not produce only job seekers but also makes job creators. For more than **25 Years**, it aimed at empowering the girl students by imparting quality education with analytical skill who can dream of a better world and transform the same into reality.

Apart from the regular degree course with an intake of 188 students, there are many special features which make the journey of students not only interesting and smooth but also help them to excel in their present and future academic endeavour.

- ◆ There are well equipped classrooms with smart board, LCD projectors etc. and bi-lingual teaching mode is followed to cater the needs of students coming from different walks of life.
- ◆ Importance of knowledge of accounting software “Tally” for a commerce student cannot be denied at all. The accounting software course is taught to each commerce student of our college and *no tuition fee* is charged to them. After successful completion of the course, Tally ERP 9.0 certificate is presented to them.
- ◆ Rewards are always a great source of motivation and achievements of students should be rewarded properly which will motivate them to excel in the field of academic and other areas. The toppers of B.Com. I, II and III are felicitated each year with a prize amount of Rupees 11,000.
- ◆ As part of the department's efforts to update and upgrade students with new aspects and other perspectives, it regularly organizes conferences, seminars, and special lectures which help the students to get ready for facing the challenges of competitive world.
- ◆ Our college provides a very special facility known as '*Book bank facility*' for those students who are unable to afford text books and reference books.
- ◆ Attempt is made to identify slow and advanced learners and thereafter to provide support to such identified students for improving their performance.
- ◆ Having a clear understanding of the pattern of the final examination is of utmost importance for students and therefore each year, *home examination* is conducted to help them understand the pattern and complexities of final examinations.
- ◆ Apart from the classroom teaching, various inter-unit and inter-collegiate quizzes, poster, debate, paper-writing competitions are organised which provides a great platform to students for showcasing their talents and building self-confidence. Training and internship programs are also organised so as to help in the holistic development of students. Placement drives are also conducted in the college.
- ◆ From time to time, various expert talks, different types of special programs such as Career Advancement boot camp, etc. are organized for the holistic development of the students.
- ◆ The department also runs 60 days '**Digital Marketing Training Programme**' for students which is a great opportunity to equip with modern skills.

Commerce Club

Overall growth of a student cannot be achieved only through classroom teaching. Co-curricular and extra-curricular activities also play an important role in shaping the personality of a student and making them ready to face the challenges of corporate world. For this purpose, the commerce department has formed a commerce club which is a vibrant hub where passion for business meets real-world experience. Committed to bridging classroom learning with practical exposure, this club empowers students in accounting, finance, marketing, entrepreneurship, and more. It organizes a rich array of activities—workshops, guest lectures, competitions, group discussions, and industrial visits—to sharpen both academic knowledge and essential life skills. Through these experiences, members build confidence, leadership, and business acumen. The Commerce Club is more than just a student organization—it's a launchpad for tomorrow's business leaders.

Diploma in Fashion Designing

In the academic session of 2020-21, college received approval from the Ministry of Education to launch a one-year diploma program in Fashion Designing, operating within the framework of the National Skill Qualification Framework. The program's central aim is to foster self-reliance and empowerment among students, reflecting a commitment to equipping learners with practical skills alongside theoretical knowledge.

With the endorsement of the Ministry of Education, college was allocated a total of 50 seats for this program, indicating governmental support for talent cultivation in the field of fashion. Notably, the course has demonstrated success over the past three sessions, consistently achieving satisfactory outcomes and affirming its efficacy.

Eligibility for admission to this program requires completion of 10+2 education, with no upper age limit imposed due to its skill-based nature. This inclusive approach ensures accessibility to a diverse range of aspiring designers, irrespective of academic background or age. The program spans two semesters, providing a comprehensive exploration of fashion design principles and practices. Despite its comprehensive curriculum, the program maintains affordability, with a total fee of 3500 rupees. This nominal fee underscores the commitment to making education accessible and equitable, ensuring that financial constraints do not hinder students' pursuit of their passions in fashion design.
